

## **AMENDMENTS TO THE CLAIMS**

1-9. (Canceled)

10. (Currently amended) A polyaniline-containing composition, characterized by comprising a polyaniline, a dopant consisting ~~consisted~~ of an emulsion polymer having an acid group in a molecule, an inorganic compound and water.

11. (Original) The polyaniline-containing composition according to claim 10, wherein the amount of the inorganic compound blended is 0.01 to 5 parts by mass as solid matter with respect to 100 parts by mass of the emulsion polymer.

12. (Canceled)

13. (New) The polyaniline-containing composition according to claim 10, wherein the content of the polyaniline is in the range of 0.01% to 10% by mass, and wherein the content of the emulsion polymer is in the range of 10% to 60% by mass as solid matter.
